NOTES ON SOME OF THE MORE IMPORTANT FIGURES PRESENTED IN THIS VOLUME.

The practice introduced in the 1918–19 complete volume of the Statistical Register, of printing an abstract of the particulars published in each part, is again adopted with this issue. It will be seen that the record contained in the Register has been generally one of progress since the termination of the war, especially with regard to the latest figures published, and on this record the notes are based.

I gratefuly acknowledge the assistance of all Government Officers and others who have kindly supplied figures for the respective branches or business concerns under their supervision.

S. BENNETT,
Government Statistician.

Government Statistician's Office,
Perth, Western Australia,
29th January, 1925.

PART I.—POPULATION AND VITAL STATISTICS, 1923.

The Population of the State on the 31st December, 1923, records an increase of 10,207 over that of 1922. The gain includes 4,924 by excess of Births over Deaths, and by Migration, *i.e.*, excess of Immigration over Emigration 5,283 persons.

The arrivals for the year recorded were 21,617 males and 12,218 females, or a total of 33,835 persons, whilst the departures shown were those of 17,681 males and 10,871 females; total, 28,552. Included under the heading of "departures" is an allowance made for unrecorded departures of 901 persons, comprising 596 males and 305 females.

The Births for the year numbered 7,854, comprised of 4,014 males and 3,840 females, a decrease of 277 as compared with the Births for 1922, the Birth Rates being 22·6 for 1923 as against 23·9 for 1922.

Illegitimate Births numbered 286 and Births in Public Institutions 1,187. Still-births registered, not included in the total Births, numbered 222 and Legitimations 54.

Deaths registered for the year were 2,930, representing 1,907 males and 1,023 females, a decrease on the previous year of 237; the Death Rate for 1922 being 9·3, whilst the rate for 1923 was reduced to 8·4. Indeed, a steady decline is shown in the Death Rate for many years past (*vide* table No. 13).

The Infantile Death Rate of 56·2 per thousand Births shows the slight increase upon the 1922 figures of 0·5, but is 22·1 lower than for 1921.

The principal causes of death are as follows :—Disease of the circulatory system, 338 ; cancer, 266 ; senility, 234 ; broncho-pneumonia and pneumonia, 230 ; phthisis, 216 ; diarrhoea and enteritis, 174 ; early infancy, 171 ; cerebral hæmorrhage, 108 ; diphtheria, 20, and typhoid fever, 18. In every case the deaths arising from these diseases show a decrease upon the 1922 figures.

The decrease in the number of Marriages still continues, the number of marriages registered during 1923 being 2,376, with a rate of 6·8 as compared with 2,446 (and the rate of 7·2) for 1922.

Naturalisations taken out were 145, the principal ones being those of Italians 39, Jugo-Slavonians 34, Germans 15, and Greeks 13.

The population of the Metropolitan Area has been estimated to be, at the 31st December, 1923, 171,859, *viz.*, 84,682 males and 87,177 females, which is greater than for the previous year by 10,086 persons.

Part II.—PUBLIC FINANCE, 1923-24.

This part deals with Public Debt, Loan Expenditure, Consolidated Revenue and Expenditure therefrom, Government Property Sales Fund and Taxation.

The total gross amount of the Public Debt on 30th June, 1924, was £62,765,782 and the Accrued Sinking Fund on 31st March, 1924, £9,373,571. The nominal interest payable on the debt averages 4·43 per cent. and that borne by Sinking Fund Securities 3·80 per cent. The total Loan Expenditure on Public Works, etc., to 30th June, 1924, amounted to £52,796,011. The Consolidated Revenue for 1923-24 totalled £7,865,595 or £22·241 per head of the population, and the Expenditure was £8,094,753 or £22·889 per head of the population.

Part III.—ACCUMULATION, 1923-24.

This part is divided into four sections, *i.e.*, "Banking," "Life and General Insurance" "Friendly Building and Co-operative Societies" and "Industrial and Trade Unions."

Cheque-paying Banks.—The Banks operating in this State on 31st December, 1923, numbered 11, with 184 branches including head offices. The rates of exchange on Drafts and Bills drawn during the year did not differ from those of the previous year so far as the Commonwealth States and New Zealand were concerned, but those drawn on London and 60 days sight on London showed considerable fluctuations. Discount on Bills remained practically stationary and Interest on Overdrafts ranged from 5 to 8 per cent. as against 6 to 8 per cent. for the previous year, whilst Interest on Fixed Deposits for 3 months ranged from 3½ to 4 per cent. and for 6 months and 24 months in the last quarter the minimums increased by ½ per cent. The Liabilities amounted to £13,160,401 and the assets to £16,870,654. The increases on the previous year were respectively £366,969 and £895,550.

Savings Banks— The amount due to Depositors in the State Savings Bank on 30th June 1924, totalled £5,845,690 and the accounts remaining open on that date numbered 153,132, the average amount per account being £38·174. Corresponding figures for the School Savings Bank were : Amount due to Depositors, £74,430 ; Accounts remaining open 43,749, and average amount per account £1.701. The amount in the combined two banks due to depositors averaged £16·429 per head of the population. The Commonwealth Savings Bank operating in this State had on 30th June, 1924, £2,298,027 due to depositors ; Accounts remaining open 67,961, average amount per account £33·814 and average amount per head of the population £6·377. The amount due to depositors in the State Savings Bank shows a slight reduction on the previous year of £20,596, whilst the Commonwealth Savings Bank reveals an increase of £198,840.

The assets of the State Savings Bank amounted to £6,022,782. which includes £5,920,120 due to Depositors ; the amount invested was £5,420,117.

Life Assurance.—There were 14 Life Assurance Companies, the same number as the previous year, operating in this State during 1923. The business of the Equitable Life Assurance Society was transferred to the National Mutual Life Association of Australasia, Ltd., and the Citizens' and Graziers' Life Assurance Co., Ltd., commenced business during the year. The total Assets of the companies were valued at £261,457,942 of which £4,990,063 was in this State. The Actual Revenue was for Ordinary business £45,863,241 and Industrial business £3,142,821, whilst the Expenditure was respectively £38,361,771 and £1,674,816. The number of Ordinary new policies issued during the year in the State were for Assurances, 6,344 for £2,259,030 with Single and Annual premiums amounting to £74,063 ; for Endowments, 1,424 for £264,877 with single and annual premiums amounting to £10,406 and eight annuities for £603 per annum. The total Ordinary business existing in Western Australia at the close of the financial year was for assurances, 41,879 policies for £13,087,755 (sum assured) ; Endowments, 4,558 policies for £684,254 (sum assured), and 36 Annuities for £1,703 per annum. These figures disclose increases on the previous year of 1,921 Assurance policies for £941,908 ; 303 Endowment policies for £87,306 and six Annuities for £25.

The number of companies doing Industrial business in the State during the year was six; or two more than in 1922. The new policies issued by them were for assurances, 13,520 for £660,372, with annual premiums amounting to £41,925 and Endowments, 1,335 for £83,341, with annual premiums amounting to £4,725. The total Industrial business existing in Western Australia at the close of the financial year was for Assurances, 75,192 policies for £2,749,237 (sum assured), and Endowments, 2,475 policies for £104,493 (sum assured). These figures reveal an increase in Assurances of 4,533 policies for £253,928, and a decrease in Endowment policies of 139 with, however, an increase in the sum assured of £5,482.

General Insurance.—The total Revenue for the year 1923 of companies operating in this State amounted to £631,207 or an advance on the previous year of £26,334, whilst the Expenditure was £492,375, of which £217,530 was paid in Losses. This latter amount is £111,337 less than was paid out in 1922.

Friendly, Building, Co-operative, and Provident Societies.—There were in existence 15 Friendly Societies on 31st December, 1923, with 290 branches and 19,590 Benefit members, of which 3,256 received sick pay during the year. The Revenue amounted to £105,512, of which £58,313 was received in contributions and the Expenditure was £91,368, of which £41,093 was paid out in sickness, medical attendance, and medicine. The funds at the end of the year amounted to £349,928, of which £342,125 was invested. There were in addition 24 Specially Authorised Societies, the revenue of which amounted to £14,856 and the expenditure to £14,058. The funds at the end of the year totalled £16,303, of which £15,069 was invested. On the same date there were 15 Building Societies with 7,235 members. Deposits received totalled £140,724, whilst loans were granted to the extent of £129,870 and repayments made amounting to £84,894. The assets were £330,159, of which £314,155 consisted of mortgages. Co-operative and Provident Societies to the number of 14 were also doing business. The members numbered 3,299 and the total sales during the year amounted to £178,528. The assets were £67,819, of which £36,589 was invested in mortgages and Landed and House property.

Industrial and Trade Unions.—On the 31st December, 1923, they numbered 174 with 36,066 members. The total income was £75,043 and the expenditure £75,140.

Part IV.—INTERCHANGE, 1923—TRADE AND TRANSPORT STATISTICS.

This part deals principally with Customs and Excise Revenue, Trade and Transport for the year ended 30th June, 1923. It contains tables showing in detail the Imports into and the Exports from Western Australia, both Oversea and Interstate, during the year 1922–23. The tables have been compiled in accordance with a revised statistical classification which came into operation on 1st July, 1922, information relating to 500 *additional* items appearing in the Import Section alone, while the number of Export items has also been increased. The countries of Origin of Imports, and the Countries to which Exports were shipped are given. The total value of the Imports shows an increase of £1,738,900, while the percentage of goods of British Origin was 84 per cent. of the Total Imports.

The following figures show the variations of the past three years' transactions :—

PART V.—LAND SETTLEMENT, AGRICULTURE, LIVESTOCK, AND METEOROLOGICAL STATISTICS, 1923–24.

Land Settlement, 1923.—On the 31st December, 1923, there were 10,194,313 acres absolutely alienated ; 17,491,857 in process of alienation, and 211,094,582 acres held under lease or license, the balance of the area of the State, neither alienated, in process of alienation nor leased being 385,808,048 acres. During the year 182 acres of town and suburban lots were sold ; 309,636 acres absolutely alienated, and 1,860,902 acres conditionally alienated. The transactions under the Agricultural Lands Purchase Act reveal that out of a total acreage of 342,783 acres, 342,189 acres were occupied at the end of the year. The number of holdings of alienated lands and lands in process of alienation from which statistical returns were collected during the year was 17,847, comprising an area of 19,458,847 acres, and for lands held under lease or license the number was 860 for 179,145,828 acres. On the above holdings 2,323,070 acres were under crop ; 38,022 acres under artificially sown grasses ; 402,156 acres prepared for next season ; 1,232,030 acres in fallow ; 2,234,820 acres of previously cropped land either used for grazing or lying idle, and 2,660,106 acres of ringbarked or partially cleared land. The value of improvements on the holdings, etc., were for buildings or sheltering stock, produce, and machinery £2,075,614 and implements and machinery £3,999,864.

Agriculture, 1923–24.—The value of production of all crops for the season was £7,535,194, or £3·244 per acre. Of the above value, wheat represents £4,493,564 and hay £1,448,304. The increase in the total value on the previous year was £1,040,039, or per acre £0·389.

No great advance from the previous season was made in the acreage under the various kinds of crops, but the production of wheat (18,920,271 bushels) shows the considerable increase of 5,062,839 bushels on the 1922–23 crop, and is greater than the previous record yield in 1915–16 by 683,916 bushels. Oats (2,846,670 bushels) also showed an advance on the previous season of 584,807 bushels, and gave a record yield for the State. Other crops show results as follows :—Malting Barley 55,317 bushels ; other Barley 42,462 bushels ; Maize 834 bushels ; Rye 2,802 bushels ; Peas and Beans 14,778 bushels ; Hay 368,122 tons ; Potatoes 17,830 tons ; Onions 502 tons, and other Root Crops 735 tons. This year the first production of cotton is recorded, the yield being three tons from 36½ acres

The total acreage under all kinds of fruit trees (18,684 acres) revealed a small decrease on the previous season, whilst the acreage under vineyards (5,235 acres) indicated a slight advance. The production of citrus fruits during the season was much larger than for 1922—Oranges (264,160 bushels) being an increase of 76,669 bushels, whilst Mandarins (18,095 bushels) and Lemons (53,221 bushels) also showed considerable increases. The result for pome fruits was not so fortunate, the production of Apples (517,247 bushels) being less than in 1922–23 by 241,751 bushels, and Pears (62,218 bushels) 44,609 bushels less, whilst the production of all stone fruits with the exception of Apricots, which showed the slight increase of 3,260 bushels, also revealed a falling off from the previous season.

The production of grapes for table use (53,231cwt.) and for drying purposes (109,921cwt.) was greater than that of the previous year by 6,358cwt. and 45,574cwt. respectively, whilst grapes for wine-making (3,8584cwt.) was less by 4,446cwt. Dried fruits produced during the season were much greater than in 1923, the total production of raisins, sultanas and currants (25,375cwt.) showing an increase of 9,377cwt.

The quantity of seed wheat used during 1923 was 1,885,636 bushels or an average of one bushel per acre. Natural manure was used to the extent of 59,565 loads or an average of 8·4 loads per acre, and artificial manure 1,841,103cwt. or 0·8 of a cwt. per acre.

The area of land irrigated during 1923–24 was 3,035 acres, the principal crops treated being lucerne, potatoes, onions, fruits, vegetables, and green feed.

The dairying and poultry farming industries reveal a slight improvement on the previous year. Butter made shows an increase of 238,958lbs., bacon and ham cured 46,512lbs., and poultry and eggs produced £12,104 ; the quantities produced of the two former being 3,005,491lbs. and 1,724,010lbs. respectively, and the latter £252,527.

The quantity of honey produced during the year was 64,178lbs. in excess of that of the previous year, the amount gathered being 395,047lbs. These figures do not represent the total production of the State, as holdings of only one acre or more have been included in the collection.

Persons permanently employed in "farming," "dairying," "orchards, vineyards and market gardens," and "pastoral pursuits" during the season, numbered 23,406, 1,736, 3,388, and 6,587 respectively. Of these 507 were Asiatics and 3,568 aborigines.

The value of products imported into this State during the year 1923–24, which could be produced here from the soil, amounted to £2,865,531. These figures are in advance of the previous year by £191,735.

The amount advanced by the Agricultural Bank to 30th June, 1924, was £4,983,461 and the amount outstanding on that date was £3,128,396. Improvements to the value of £4,591,254 have been effected. The Industries Assistance Board has also made advances to settlers to the extent of £8,257,084 and the amounts repaid total £6,189,843.

Live Stock as on 31st December, 1923.—The livestock show slight advances on the previous year in horses, cattle, mules and donkeys of 785, 14,168, 165 and 372 head respectively ; whilst sheep, pigs, camels and goats have decreased by 68,268, 6,083,351, and 1,513 respectively. The numbers on the above date were : Horses 181,944 ; Cattle 953,764 ; Sheep 6,595,867 ; Pigs 61,478 ; Camels, 6,122 ; Mules 1,549 ; Donkeys 9,060, and Goats 30,804. The South-Western and North and North-Western portions of the State were principally responsible for the increases in horses and cattle. The decline in sheep and pigs was most marked in the South-Western portion, the North and North-Western portion being the only part of the State to record an increase in the two latter kind of stock. The loss of livestock during the year was greater than in 1922, whilst the stock slaughtered for consumption show an increase in cattle of 10,767 head ; sheep a decrease of 90,625 head, and pigs an increase of 7,512 head.

The lambs and foals dropped during the year were fewer than in the previous year, calves dropped, however, showing a slight increase.

The quantity of wool produced (42,815,005lbs.) was greater than that of the previous year by 4,222,074lbs., and the average weight of the fleece half-a-pound heavier.

Meteorological Statistics, 1923.—The rainfall map for the year 1923 presented a marked contrast to that of the previous year. Whereas 1922 was characterised by a serious and almost universal deficiency, the twelve months under review was one of bountiful rain over at least half of the settled portions of the State.

The Kimberley districts formed the chief exception to the above remarks. At Broome the year's rainfall fell short by 6·85 inches of the annual average, while smaller deficiencies were noted at other stations, exclusive, however, of Fitzory Crossing, where a small excess was noted.

The chief area of over-average rainfall included the Coastline between Roebourne and Albany and extended inland through the greater part of the North-West, Gascoyne, and Murchison and the agricultural country, where some very pronounced excesses wers shown, outstanding examples being Carnarvon 15·92 inches. The Junction 12·86 inches, Gingin 11·50 inches, Chidlow's Well 15·82 inches, and Donnybrook 14·38 inches. Onslow, however, showed the highest excess with 26·82 inches, or 18·12 inches above normal. This station has the unenviable reputation of possessing the most variable rainfall in Australia. In 1912 only 0·57 inches fell, while on the other hand 1900 saw a gauging of 26·96 inches (one of the two previous occasions on which the total for 1923 was exceeded).

The heavy excesses quoted above all occurred, it will be noted, on or near the Coast. The falls dwindled very rapidly towards the interior, and at a few stations on the extreme Eastern fringe of the agricultural areas, as well as throughout the Coolgardie Goldfields, defects were in evidence, ranging from a few points to 4·57 inches at Kookynie and 5·89 inches at Hopetoun.

January was an exceptional month. A slowly-moving rainstorm, which originated as a "Willy Willy" on the North-West Coast, gradually swept through the State between the 16th and 20th. Amongst its more notable results was the registration of record 24 hour gaugings at the majority of West Gascoyne stations on the 17th. After the latter date a long interval ensued, broken only by scattered thunderstorms, until the 24th–26th March, when another storm of the "Willy Willy" type passed down the Coast. The associated rainfall extended from 100 to 200 miles inland and appeared to cut off very sharply on the Eastern edge, but a belt of country lying further inland suffered from extremely severe dust storms, which were accompanied by the unusual phenomenon of "St. Elmo's Fire." Another notable feature of this storm was an excessive downpour at Onslow—13 inches in the 48 hour period, 23rd–24th. Other "Willy Willy" disturbances affected the State during March, but the rainfall was very limited in extent.

The outstanding feature of April was the breaking of a protracted drought over the agricultural country—the "Willy Willy" storm of the previous month brought no rain to the Eastern portions of the Wheat Belt. The 20th of the month saw useful preliminary rains throughout the South-West quarter of the State, and these were repeated on the 22nd, 23rd, 26th, and 29th. In addition a fine rainfall extended through the North-West, Murchison, and Coolgardie Fields to the head of the Bight in the early part of the month.

The true winter agricultural rains set in at the beginning of May and lasted, with few intervals, until early October, when they terminated abruptly. They were not, however, equally heavy in each month. In May they lacked penetrating power, and deficiencies were noted over many of the North-Eastern areas. In June extreme activity was shown, the falls extending to practically the whole State—a most exceptional occurrence—while in many parts of the South-West quarter floods and excessive downpours did a great deal of damage, and a large number of Stations reported record gaugings for the month.

In July the chief rainstorms pursued an inland track, and the North-West, Gascoyne, Murchison, and Goldfields benefited greatly ; many Murchison localities which all earlier rains seemed to have avoided being served by a generous downpour. The South-West and agricultural country experienced heavy deficiencies, but the shortage on the whole was beneficial, as it allowed crops, etc., to recover from the excessive wetness of the previous month. August, despite frequent light rains, was also defective in the agricultural country and practically rainless elsewhere. The frequency of light showers, however, prevented the desiccation of crops and herbage, which having made good recovery from the June downpours, now showed excellent progress.

In September the rains gained somewhat in intensity, and excesses were noted over practically all wheat-growing districts. A final rain of the winter type fell early in October, but was followed by a prolonged fine spell, which was not broken until mid-December, when rains of a summer character fell over large areas of the wheat country. Similar falls occurred later in the month, affecting chiefly the Central and Southern wheat-growing areas and the Coolgardie Fields, but the Northern half of the Midland district was still suffering from a shortage of water at the close of the year. Unfortunately these late rains were associated with hail, which caused damage to the wheat crops over restricted areas in the Eastern and North-Eastern districts.

Fires during the latter half of November ravaged an extensive region in the West Gascoyne, where the phenomenal rainfall had resulted in a most luxuriant growth of grass and herbage.

In the Kimberley, summer thunderstorms commenced early, but were neither general nor particularly heavy until December, and then only in East Kimberley.

Part VI.—INDUSTRIAL ESTABLISHMENTS, 1923 (Exclusive of Mines).

The Secondary industries of the State still continue to advance, though a slight decline is noticeable in the number of "factories" which forwarded returns.

It is probable that some of the many small establishments which were started after the war period have come to grief, or have amalgamated with larger establishments, and that something of this kind may have taken place is suggested by the fact that the number of persons employed was about 600 more than in the previous year. Salaries and wages paid also rose from £3,713,108 to £3,865,324 and the value added to the raw material from £5,789,786 to £6,128,575.

The values of Land and Buildings and Plant and Machinery owned by the various "factories" were £4,533,097 and £4,620,584 respectively in the year 1923.

An analysis of the number of hands employed in the secondary industries discloses the fact that only 83 factories employ over 50 workers each and actually 336 employ under four hands.

As already implied, a number of the smaller "factories" have been started since the end of the Great War, and although the majority perhaps may have been successfully established, they have not yet had time to develop sufficiently to warrant the employment of large staffs.

Increased production in 1923 was shown in—

Leather tanned (1,817,044lbs.).
Bricks made (34,863,747).
Lime burned (10,744 tons).
Timber produced (192,546,878 super feet).
Confectionery made (3,254,040lbs.).
Flour made (107,990 tons).
Sauce made (212,572 pints).
Vinegar produced (1,106,920 pints).
Pickles made (156,272 pints).
Cigars and Cigarettes (86,005lbs.).
Boots and Shoes made (315,578 pairs).
Fertilisers manufactured (93,585 tons), excluding Guano and Abattoir products.
Electric: (1) Light and (2) Power produced (15 million and 33 million British trade Units respectively).
Gas made (204,447,400 cubic feet) and other commodities.

The total values of output in certain industries were as follow:—

	£
Pottery and Earthenware	51,539
Bacon	150,636
Butter	137,081
Aerated Water and Cordial Factories	136,431
Breweries	538,223
Tailoring, etc.	503,916
Coach and Motor Body Building	148,902
Saddlery and Harness-making	90,179
Chairmaking, Furniture, and Cabinetmaking	287,767
Electrical Apparatus Works	27,278
Basket and Wickerware	24,455
Vulcanising and Rubber Works	11,895

Information relative to Pearl, Pearlshell and General Fisheries, also Guano Production, is given for the decennial period, 1914–23. These particulars show that 14,399 tons of pearlshell valued at £2,025,675, and pearls valued at £511,803, have been raised during this period, and this in spite of the fact that these ten years cover the whole of the war period and the years of depression following. The tables relative to minimum rates of wages for adult workers and apprentices established under Arbitration Awards and Industrial Agreements in certain trades and for certain occupations are brought up to the 30th June, 1924.

Part VII.—MINERAL STATISTICS AND WATER CONSERVATION, 1923–24.

The estimated total value of Gold and other Minerals produced in this State during 1923 was £2,657,950, making a grand total value up to the 31st December in that year, of £159,331,789. Out of this total a value of £152,029,082 represented the gold output, a valu of £1,510,066 the tin (ore and ingot) output, £1,746,122 copper (ore, ingot and matte), £586,275 silver, £703,385 lead and silver lead ore and concentrates, while £3,831,878 worth of coal has been raised since the inception of the coal mines in W.A. The actual quantity of gold *received at the Mint plus that exported* during 1923 was 504,512 fine ounces, which was only a little over 30,000 ounces less than what was produced in the previous year. The gold produced up to 31st December, 1923, in Western Australia amounted to 35,344,880 fine ounces and dividends amounting to £28,380,706 have been paid by companies engaged in this industry in Western Australia. The coin minted from 1899 to the 30th June, 1924, amounted to 95,014,126 sovereigns and 567,338 half-sovereigns. Gold-mining leases in existence during 1923 numbered 656 with a total area of 10,839 acres.

Details of other mineral leases, areas, claims and rights in force under the "Mining Act" will be found in the Part.

The State batteries, tailing and slime plants, etc., showed a total expenditure of £38,408 and receipts amounting to £26,762.

There were 942 men employed in the production of ores and minerals other than gold during 1923. These added to 5,555 men, estimated to be employed in gold production, made a total of nearly 6,500 miners employed in this State.

Under the heading of "Water Conservation," information is given relative to Goldfields Water Supply, Metropolitan Water Supply, Public Works Department, Supplies to Country Towns and Agricultural Districts, Mines Water Supply, Artesian and Sub-Artesian Waters Supplies and Miscellaneous.

The consumption of water under various schemes was approximately :—Goldfields Water Supply 858 millions, Metropolitan Water Supply 3,090 millions (including Mundaring water), Country Towns Water Supply (P.W.D. Control) 145 millions, Railway (Departmental) supplies 321 millions, Country Towns (own control) 206 millions.

Particulars are given of 212 Artesian or Sub-Artesian bores which have been successfully sunk in this State. Of these 38 were sunk at Carnarvon, 18 at Bunbury and 17 each at Hamelin Pool and along the Trans Australian railway line.

The revenue from the Metropolitan Water Supply Scheme in 1923–24 was £135,250 for Water and £83,388 for Sewerage and Drainage, while the revenue for the same period in the Goldfields Scheme was £167,597. Details as to Expenditure in both Schemes are also given.

Part VIII.—LAW, CRIME, ETC., 1923–24.

This Part of the Annual Statistical Register contains figures of the transactions of the Land Titles and Deeds Office up to the 30th June last, of Supreme Court business to 31st December, 1923, to the latter date also figures relative to cases that came before Magistrates' and Higher Courts, beside the general business of Local Courts, Wardens' Courts, Licensing Courts, and Coroners' Courts, and finally an abstract of the latest gaol and prisoners' statistics.

The Returns relative to the transactions of the Land Titles Office show figures similar to those of the previous year. Variations are principally a decrease from 2,180 to 2,080 in the number of applications approved and completed, a decline from 124 to 52 in the number of applications to bring land under the operation of the Transfer of Land Act, a diminished total value of such land from £142,891 to £94,321, and a drop in the amount of consideration expressed in regard to Transfers registered from £6,224,802 in 1922–23 to £5,698,265 for the year under review, the number of Transfers registered, however, being but 92 less. Mortgages registered increased from 9,592 to 9,788 and the amount of principal moneys thereby secured from £4,777,729 to £5,452,041. Freehold and Crown Leases registered decreased from 191 to 138 and 2,272 to 2,230, respectively. The Assurance Fund increased from £8,266 to £9,009. Data of the Revenue and Expenditure reveal an increase in the Fees collected, the total receipts rising from £28,033 to £28,709, which, with a decline in the expenditure from £15,433 to £15,137 resulted in a rise in net revenue from £12,600 to £13,572.

In the Supreme Court transactions during 1923, the number of Actions under Common Law slightly increased, the amount involved, however, being considerably less than in the previous year. In both the Probates and Letters of Administration Division increases were recorded in the value of sworn estates. Probates increased from £1,010,595 to £1,317,151 and Letters of Administration from £218,990 to £280,820. Under Bankruptcy, increases in the Assets and Liabilities are noticeable. When compared with the year 1921, however, the records for 1923 show the Assets to be less and the Liabilities greater. The totals for 1923 were Assets £24,018 and Liabilities £50,449. Transactions under Bills of Sale and Liens increased, the registrations during the year numbering 4,637 represented £4,979,376 and the satisfactions entered, 411, amounted in value to £576,633. Local Companies registered numbered 94 with Capitals amounting to £1,627,000 against 111, with capitals amounting to £2,150,422, in 1922. The number of Intestate Estates reported, compared with the previous year, declined from 400 to 300 and the amount collected thereon increased from £18,949 to £20,229.

The Crime figures, when compared with those of the year 1922, show a decrease of 451 in the total of distinct persons brought before the Courts, the total being 8,555 persons. For the 10,182 offences charged against these persons during 1923 (excluding aborigines) 9,065 convictions were recorded, of which (apart from convictions for the offence of Drunkenness) 1,236 were attributable to drink. There were, again excluding aborigines, 662 fewer cases and 763 less convictions in the Magistrates' Courts during the year than in 1922. The proportion of numbers of offences in regard to the classes of offences remained consistent in the main, the chief departure being in a decrease in the class of offences against Good Order, Drunkenness being less by 542 cases and 550 convictions. Slight increases are noticeable in the number of offences against the Person, and small decreases against "Person and Property" and Property only. The cases of Forgery and like offences increased from 7 in 1922 to 17 in 1923. The offences against Good Order diminished, 6,381 cases and 6,057 convictions being recorded as against 6,750 and 6,460 respectively in 1922. The cases due to drink (excluding drunkenness) in this class were 1,034 against 996 in 1922 ; whilst those in all classes due to drink were 1,236. Offences declined slightly also in the classes against carrying out of Laws, Revenue, and Public Welfare. Data relative to repeated conviction of individual offenders during the year disclose that, of the 7,165 persons convicted in the Lower Courts, 6,112 persons were convicted but once, 688 twice, 205 three times, 64 four times, and 45 five times, the remainder, 155, comprising those of six to over 12 convictions. The total convictions (excluding neglected children and Lunacy Cases) in all Courts numbered 9,258 or 2·66 per cent. of the means population as against 2·93 per cent. in the previous year, the corresponding figures for the year 1916 showing 13,944 convictions or 4·45 per cent. The peremptory commitments to prison were 701 in the Lower and 64 in the Higher Courts, whilst in addition 98 Aborigines from the Lower and 12 from the Higher Courts were committed to prison. The percentage of all commitments to all convictions was 9·88. The total number of juveniles (under 18 years) convicted was 563, males 538 and females 25. Of these 168 were convicted for Stealing (including Breaking and Entering), 127 for Breaches of Local Government Bylaws, and 141 for offences against Public Welfare. The number of Destitute and Neglected Children dealt with by the Children's Courts during 1923 was 145, being 58 less than in 1922.

In the Local Courts cases the number of Plaints and amounts recovered increased, the number recorded being 16,649 and the amount £76,208. The Wardens' Court figures were similar to those of previous years.

Liquor Licenses granted during 1923 exceeded those of 1922 by 106, due almost entirely to the greater number of Temporary licenses granted. There was a decrease of 11 in the number of Publicans' General Licenses issued.

The Gaols and Prisoners statistics for 1923 show that whilst the separate commitments and distinct prisoners decreased in number, the daily average in prison remained practically the same. The annual cost of Prisons and Prisoners decreased, being £23,096 for the year 1923 against £25,930 in 1922. The earnings of the prisoners increased, the amount for 1923 being £12,746 against £11,552 in the previous year.

Part IX.—Hospitals, Charitable Institutions, Etc., 1923-24.

There has been no increase during the year in the number of Government Hospitals in the State, but from the figures shown, the increase in the number of cases treated amounts to nearly 1,000 more than those in the previous year. The patients remaining in these Hospitals at the 31st December, 1922, were 396. During the year patients admitted for treatment numbered 6,261, discharged as cured 3,688, relieved 1,726, unrelieved 91, and deaths 352, leaving 272 males and 132 females remaining in at the 31st December, 1923, for further treatment.

The average daily number resident in Government Hospitals was 422·9, whilst the average duration of residence of patients treated was 23·4 days.

The number, so far as supplied, attending for outdoor relief, was 2,271, whilst the re-attendances amounted to 7,732 visits.

During the year under review two new Assisted Hospitals were opened, at Bruce Rock and Dwellingup, the number of Assisted Hospitals being 32 as against 30 in 1922.

Patients remaining in the Assisted Hospitals at the end of the previous year numbered 515. During the year 1923 there were admitted for treatment 9,970 persons, discharged as cured 5,155, relieved 3,203, unrelieved 330, deceased 721, whilst 336 males and 225 females remained for further treatment.

The attendance, so far as shown, for Outdoor Relief, numbered 21,386, whilst the re-attendances numbered 93,673.

The principal diseases which received attention from the authorities in both Government and Assisted Hospitals were :—

The number of patients in the Hospitals for insane at 31st December, 1923, was 1,066 as against 1,079 for 1922, showing a decrease of 13. The deaths numbered 65 as against 53 for the previous year.

The number of inmates in the Homes for the Destitute at 31st December was 666, whilst for 1922 the numbers were 701.

The Children in Orphanages and Industrial Schools numbered 968, as against 1,055 for the previous year, showing a decrease of 87.

Aborigines and Half-caste Aborigines, in Native Institutions and Missions, numbered 1,017, an increase of 464 from the 1922 figures.

State Supported Children on the 30th June, 1924, numbered 772 as against 709 on the 30th June, 1923, an increase of 63.

A statement of the Annual Receipts and Expenditure of the various Charities and Institutions not under the immediate control of the Government for the years 1919 to 1923–24 concludes this part of the Register, and will be found on page 12.

Part X.—EDUCATION, SCIENCE, AND ART, 1923–24.

Information relative to the Education Department is in many cases for calendar years, but in the financial statements, as also in the majority of figures relating to scientific and other societies, the particulars have been brought up to the 30th June, 1924.

The total amount expended on education, etc., out of revenue was £641,644, showing an increase over that of the preceding year of over £20,000. This is practically all accounted for by an increase of the same amount in the Education Department expenditure, "Salaries and Allowances" having risen from £496,684 to £513,870. There was also a small increase in the amount spent on Experiment Farms under the control of the Minister for Agriculture. The receipts paid to revenue by the Education Department amounted to £18,254, against £16,512 for the previous year.

During 1923–24, in Government (primary) Schools the average enrolment of scholars was 50,977, the average attendance 45,213, and the average cost per head (calculated on such attendance) £10 5s. 1¾d., a decrease on that of the previous year.

At the end of the year 1923 the total enrolment in Government (secondary) schools was 989 and in Private Schools 11,224, making, with a total enrolment of 50,878 scholars in Government Primary Schools, a grand total of 63,091 children being educated at that period ; 2,422 teachers were employed in teaching these children, there being approximately one teacher for every 26 pupils. A slight increase during 1923 in the enrolment in both technical and continuation classes is noticeable, and in the manual training and household management sections, which in 1923 included High School centres, there were 224 more enrolled pupils than in 1922. There were also 144 students in the school of Mines during the third term of 1923. In the University there were 353 students attending lectures against 336 in 1922. The number of candidates for the School Certificate Examinations, Junior and Leaving, was 711 (1923 figures 675). In musical examinations, conducted by the Australian Universities in 1922, 327 and 231 certificates were obtained for practice and theory of music respectively, while the figures for 1923 were 394 and 289.

The attendances at the Public Library and Museum during 1923–24 were 143,083 and 62,515 respectively.

Financial and other particulars are given for the Royal Society of W.A., the W.A. Society of Arts, the Acclimatisation Committee of W.A., the Zoological Gardens, the King's Park Board, and the Royal Life Saving Society. Interesting figures are given relative to Agricultural Halls Miners' and Mechanics' Institutes. During 1923 there were 264 Halls and Institutes in operation and 9 others inactive. The cost of these buildings to date is estimated at about £160,000, and an amount of £40,000 may be added for the contents (furniture, books, etc.), making a grand total of £200,000 worth of assets under the control of the committees managing these institutions in Western Australia. Government and Municipal Grants amounted to only £1,318, but there were other receipts to the value of £28,695.

Part XI.—LOCAL GOVERNMENT, 1923.

Municipalities.

The number of Municipalities (21) was the same on the 31st October, 1923, as on the same date in the previous year. The total population of the 21 municipalities was approximately 172,881.

The capital value of rateable property, including improvements (£31,054,031) shows an increase of £1,561,460. The annual value, £1,810,173, also shows an increase of £99,784 as against the figures for the previous year. Hence the amount payable in respect of rates has increased by £16,039.

The total revenue, £872,869, was higher by £38,167 than that of the year previous, while the expenditure, £864,636, also increased by £17,426. Included in the revenue for 1923 were amounts received for rates, £277,993, and loans raised during the year £77,750. Amongst the items of expenditure was £202,758 for works and improvements to streets, roads, etc.

The amount of loans current on 31st October, 1923, £1,802,781, exceeded that of 1922 by £35,219, whilst the accrued sinking funds for the redemption of loans, £414,430, is greater by £36,677.

As a consequence of new road construction during 1922–23 being practically *nil*, the total length of roads and streets in existence on 31st October, 1923 (992 miles 61 chains), shows an addition of only 55 chains on the previous year.

Road Districts.

The number of Road Districts (121) was the same on the 30th June, 1923, as on the same date in the previous year.

The total population of the Road Districts was 180,165. These figures are, however, approximate, as in some cases where a later estimate could not be obtained the population recorded at the census of the 4th April, 1921, has been taken.

Some of the Boards rate on the annual valuation, and some on the unimproved capital value, so that no really satisfactory comparison of figures can be made with previous years.

The total revenue, £369,738, exceeding that for the previous year by £80,419, included £193,018 for rates, and £20,849 loans raised. The expenditure, £347,286, was also greater by £40,135, and included £203,267 for construction and maintenance works.

The amount of loans current on 30th June, 1923, £210,755, was £16,480 more than on the same date in 1922, and the accrued sinking funds for the redemption of loans, £25,331, also showed an advance of £1,040 over the previous year.

The total length of cleared, formed, and metalled or otherwise constructed roads (38,907 miles 34 chains) exceeded that of the year before by 1,668 miles 40 chains, and the number of culverts (10,365) and fords (1,722) also show increases.

Local Boards of Health.

There were 21 Municipal and 104 other Boards of Health in existence in 1922–23, 9 of the latter being inactive during the year. The combined revenue, £140,056, which includes £56,323 for rates and £70,700 for sanitary charges and rubbish fees, was £6,776 greater than that of 1921–22, and the expenditure, £133,191, exceeded the previous year's by £3,250, the sanitary and rubbish services costing £89,430.

Fire Brigades.

The number of Fire Brigades (40) was the same as for 1922. The number of permanent firemen (106) decreased by 5, whilst the number of volunteers (542) increased by 15. The revenue, £35,552, was £719 above that of the previous year, and the expenditure, £35,463, exceeded that of 1922–23 by £7,177.

PART XII.—"MISCELLANEOUS," 1923–24.

The first matter dealt with in this part is that of Parliamentary Rolls, Elections, etc., particulars being given to the 30th June, 1924, for the State Government, and for that of the Commonwealth, so far as this State is concerned.

Information relative to the first Local Option Poll (including that on the question of State Control of Licenses) is also given.

It will be noticed that the number of names on the State Rolls increased during the twelve months by 19,769 in the case of the Assembly, and by 4,393 in that of the Council, the totals being—Assembly 189,372 and Council 58,676. The figures relative to the State Elections disclose that the percentage of the sexes on the Assembly rolls was—Males 53·57 and Females 46·43, and relative to the number of votes recorded 55·93 and 44·07 respectively. Similarly in the Council elections the percentages were—Males 74·65 and Females 25·35 on the rolls and 78·37 and 21·63 respectively of those who voted.

The data relative to the Commonwealth Rolls show an increase of 4,622 names on the rolls since 30th June, 1923, the total twelve months previously being 177,413.

A summary of the Senate Elections and Referenda from 1903 to 1922 is also included.

A combined return relative to the operations of the Workers' Homes Board extending over the ten years period ended 30th June, 1924, is given in this part. The total cost of the approved applications was £852,370, being an addition of £61,618 to the accumulated total of 1923. A statement in respect of the Returned Sailors' and Soldiers' League shows that there were 88 branches in this State with a total of 4,125 members, the total receipts were £3,280 and the expenditure £1,135, whilst for the Soldiers' Institute the receipts and expenditure amounted to £679 and £729 respectively.

Newspaper publications in Western Australia numbered 95, of which three were dailies and 59 were published once or more weekly.

The State Labour Bureau's Return shows that during the year ended 30th June, 1924, 9,030 men and 1,394 women applied for employment and engagements, and re-engagements were found for 6,175 of the former and 1,846 of the latter. These figures disclosed that 1,194 more men and 162 less women obtained employment through the Bureau's Agency than during the previous twelve months. The engagements for men were principally those of 1,303 bushmen, 600 farm hands, 925 labourers, 323 handymen and lads, 384 lads for farms, 306 saw mill hands, and 1,421 employed on road construction, whilst the women who thus obtained employment included 69 cooks, 140 generals, and 1,415 day-working laundress-charwomen. A table detailing the assistance rendered to applicants shows that during its ten years of operation the Bureau had advanced 19,942 fares, totalling £23,231, of which £18,406 had been refunded. In addition £40 was supplied to 49 men and women as advances for fares *from employers* and £101 under the scheme for placing Goldfields lads on farms. The rates of wages obtaining in various occupations for which engagements were secured at the Bureau conclude this part of the Statistical Register.

STATISTICAL VIEW OF NINETY-FIVE YEARS' PROGRESS IN WESTERN AUSTRALIA, 1829 TO 1923–24.

The subjects dealt with in this publication are those presented more fully in the other parts of the Register, viz., Population, Migration, Vital Statistics, Post and Telegraphs, Public Revenue and Expenditure, Loan Expenditure, Public Debt, Lands, Agriculture, Live Stock, Gold and Coal Production, Railways, State Savings Bank, Shipping, Imports, Exports and the principal items of exports of the State, Wool, Raw Gold, Timber, Wheat, Flour, Pearl-shell, etc.

TOTAL PRODUCTION.

As no statement of the Total Production of the State is shown in any part of the Statistical Register, the following table is here appended :—

* The mean population for the year is obtained as follows:—To the population at the end of the preceding year add four times the population on the 31st March of the year under review, twice the population on 30th June, four times the population on the 30th September, and the population on the 31st December, and divide the total by 12, which is the method now in use throughout the Commonwealth of Australia. Each quarterly mean is arrived at by adding together the number of the population at the beginning and at the end of the quarter and dividing the sum so obtained by two.

† Six months ended 30th June.

No. 5.—IMPORTS into the State of Western Australia during the Year ended 30th June, 1923.

Duties on British and Foreign Imports are collected under the provisions of the Commonwealth "Customs Tariff Act, 1921" (George V., No. 25).

NOTE A.—On all British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.

NOTE B.—The "Quantity" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

TRADE CLASSIFICATION.

Owing to the grouping of the Import and Export Items into Classes, in lieu of the alphabetical system followed prior to 1918–19 by the Customs Department, it has been decided to insert, for the convenience of the public, a résumé of the classes, together with a slightly condensed index of the items in alphabetical order.

No. 6.—EXPORTS of Merchandise from the State of Western Australia during the Year ended 30th June, 1923.

NOTE.—The "Quantity" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles exported.

TRADE CLASSIFICATION.

Owing to the grouping of the Import and Export Items into classes, in lieu of the alphabetical system followed prior to 1918–19 by the Customs Department, it has been decided to insert, for the convenience of the public, a résumé of the classes, together with a slightly condensed Index of the items in alphabetical order.

* The cause of the great difference between the number of Vessels entered and cleared prior to 30th June, 1914, is principally due to the number which enter the State *via* South Africa, and on their outward voyage to Oversea Countries proceed *via* Suez Canal. † Six months ended 30th June. ‡ This and subsequent years terminate on 30th June.

No. 33.—Transactions of the Fremantle Harbour Trust and Bunbury Harbour Board during the undermentioned Periods.

NOTE.—The expenditure bases of the two Corporations are not the same. The Fremantle Harbour Trust employs all labour engaged in handling cargo on the wharves, whereas in the case of the Bunbury Harbour Board, general cargo is handled by the Railway Department for and on behalf of the Board and bulk cargo by the Stevedores, and no revenue (other than wharfage) is derived therefrom or expenditure thereon incurred. The sinking fund of both Corporations is invested at an approved rate of interest.

NOTE.—In addition to the above figures the following particulars were also obtained :—Acreage of Planted Forest Trees, 1,005 acres ; Lands farmed on the "Share System" : For Cultivation, 23,449 acres and dairying, 1,650 acres. * The reason why Returns relative to certain alienated and leased lands are not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with lands which remain *entirely unimproved or unstocked*, and also in a lesser degree to the fact that small holdings under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

No. 12.—Acreage and Production of Wheat and Oats in each Statistical District, Sub-District, and Area for the Season ended 29th February, 1924.

NOTES.—1. *The rectangular areas* adopted, which are shown on the map attached to this part of the *Statistical Register*, are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed they are units that can be readily sub-divided and re-grouped at any future time into new districts and sub-districts without impairing their use for comparative purposes. Except where the areas are broken by the sea coast or other causes, the area numbers here printed in black type represent areas of 8,437½ square miles each, whilst those printed in ordinary type represent areas of 937½ square miles each, and the sub-area numbers marked A, B, C, or D, as the case may be, represent areas of 234⅜ square miles each. 2. Areas in parentheses and marked with an asterisk (*) are those for which the returns, if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are unoccupied as regards the headings shown. Areas marked (†) are portions of areas only.

NOTE.—This table has been compiled with the special object of showing the values of the importations into Western Australia in the past decade of such products of the soil and of live stock as might in the future be produced within the State, but are at present introduced to supply the deficiency in local production. It serves, in some respects, as a basis for calculations as to the market reasonably to be expected therein for home-grown products. *Corrected from previous issue.
